### TECHNICAL DATA

|                                                |                                                                                                                      |
|------------------------------------------------|----------------------------------------------------------------------------------------------------------------------|
| Available Colors                               | blue                                                                                                                 |
| Dimensions                                     | 3.30 x 3.30 m                                                                                                        |
| Material                                       | high tenacity polypropylene, knotless                                                                                |
| Material Diameter                              | Ø 15.0 mm                                                                                                            |
| Mesh Size                                      | 130 x 130 mm                                                                                                         |
| Pose of Meshes                                 | rhombic (diamond mesh)                                                                                               |
| Mesh Connection                                | knotless braid                                                                                                       |
| Edge Design                                    | with edged rope, with two cross ropes through the net (PA Ø 14 mm), incl. loops with scuff protection on the corners |
| Edged Rope                                     | nylon rope (Ø 14 mm, white), all around                                                                              |
| Max. Tensile Strength of a Mesh                | 8300 N                                                                                                               |
| Breaking Elongation of Filament                | 15%                                                                                                                  |
| Payload                                        | 3 tons                                                                                                               |
| Standards and Rules                            | EN 1263-1                                                                                                            |
| Certificate                                    | Oeko-Tex®; certificate 12.0.02466                                                                                    |
| Continuous Operating Temperature               | -40 to +80 °C                                                                                                        |
| Melting Point                                  | 165 °C                                                                                                               |
| Washing Temperature (max.)                     | 30 °C                                                                                                                |
| Yarn Moisture Regain                           | 0%                                                                                                                   |
| Tensile Strength Reduction Because Of Moisture | 0%                                                                                                                   |
| Resistance to Weak/Strong Acids                | very good/good                                                                                                       |
| Resistance to Weak/Strong Alkalies             | good/not good                                                                                                        |
| Resistance to Organic Solvents                 | good                                                                                                                 |
| Resistance to Benzene and Greases              | very good                                                                                                            |

|                                                                |                                               |
|----------------------------------------------------------------|-----------------------------------------------|
| <b>Bending Strength &amp; Abrasion Resistance</b>              | good                                          |
| <b>Weather-Resistance</b>                                      | good                                          |
| <b>UV-Resistance</b>                                           | 300 kly                                       |
| <b>Tensile Strength After Two Years of Climatic Influences</b> | 90%                                           |
| <b>Elasticity After Years of Climatic Influences</b>           | good long-term flexibility, little elongation |
| <b>Flexibility When Used in Water</b>                          | stays flexible                                |
| <b>Contraction When Used in Water</b>                          | low contraction                               |
| <b>Contraction When Used Outside</b>                           | no contraction                                |
| <b>Behavior in High Heat / Fire</b>                            | melting                                       |
| <b>Electrical Characteristics</b>                              | isolating, no electrical conductivity         |
| <b>Customs Tariff No.</b>                                      | 56081930                                      |
| <b>Area Density</b>                                            | 1150 g/m <sup>2</sup>                         |
| <b>Total Weight</b>                                            | 15.70 kg                                      |
